SYNERGY HT

ILS prides itself to build the highest quality lecterns around from thick aluminum profiles, blocks and plates, machined to a perfect fit and style. The lecterns are virtually free of maintenance for decades. In ILS products it is possible to remove a damaged part and renew it, or to make new fittings for future upgrades without affecting the rest of the installed system.

ILS Synergy HT delivers ILS quality with a smart design. The solid top of the lectern is made of handmade thick wood and placed on a motorized narrow pillar with a height adjustment range up to 40 cm (15 "+). Two buttons will help you to control it. In the lowest position, a seated person can freely use the system.

The Synergy HT is an ideal solution for rooms where handwritten notes or laptops are used for presentation. There is also a laptop power socket and a holder with built-in charging cables for tablets and smartphones. To connect other devices, there are four sockets with the type on request. The microphone socket is of the XLR shock-mount type and there is the provision for a reading light, controlled by the button. When needed, horizontal side tables can be integrated moving up and down with the top. This will make it possible to place a document camera on one of them.

For ease of movement and stability of the lectern during the presentation, four lockable smart castors are provided. In addition, we will be pleased to engrave your logo on the extra front panel of the lectern, in case of using the system in formal events!

DIMENSIONS

Width	**Top:** 720 mm x 535 mm
Height	**User side: min**: 860 mm **max**: 1250 mm
	Audience Side: min: 970 mm **max**: 1360 mm
Weight	60 kg

INTEGRATION

Accessories	**Audio:** 1 x Microphone AKG CGN 99
	Light: 1 x LITTLITE LED XLR-4 lamp
Features	Luxury handmade thick wood plate for laptop and documents
	Ultra Wide Phone/Tablet holder
