

ILS prides itself to build the highest quality lecterns around from thick aluminum profiles, blocks and plates, machined to a perfect fit and style. The lecterns are virtually free of maintenance for decades. In ILS products it is possible to remove a damaged part and renew it, or to make new fittings for future upgrades without affecting the rest of the installed system.

**ILS Synergy AT** delivers ILS quality with a smart design. The solid top of the lectern is made of anodized aluminum and placed on a motorized narrow pillar with a height adjustment range up to 40 cm (15 "+). Two buttons will help you to control it. In the lowest position, a seated person can freely use the system.

The Synergy AT is an ideal solution for rooms where handwritten notes or laptops are used for presentation. There is also a laptop power socket and a holder with built-in charging cables for tablets and smartphones. To connect other devices, there are four sockets with the type on request. The microphone socket is of the XLR shock-mount type and there is the provision for a reading light, controlled by the button. When needed, horizontal side tables can be integrated moving up and down with the top. This will make it possible to place a document camera on one of them.

For ease of movement and stability of the lectern during the presentation, four lockable smart castors are provided. In addition, we will be pleased to engrave your logo on the extra front panel of the lectern, in case of using the system in formal events!

#### DIMENSIONS

<b>Width</b>	<b>Top:</b> 720 mm x 535 mm
<b>Height</b>	<b>User side:</b> min: 860 mm max: 1250 mm <b>Audience Side:</b> min: 970 mm max: 1360 mm
<b>Weight</b>	60 kg

#### INTEGRATION

<b>Accessories</b>	<b>Audio:</b> 1 x Microphone AKG CGN 99 <b>Light:</b> 1 x LITTLITE LED XLR-4 lamp
<b>Features</b>	Luxury anodised aluminum surface for laptop and documents Ultra Wide Phone/Tablet holder Height adjustment: Motorised Narrow Pillar 40cm range height 3 x Buttons (2 x Height control; 1 x Light;) 4 x lockable smart castors or sideways rollers
