ILS prides itself to build the highest quality lecterns around from thick aluminum profiles, blocks and plates, machined to a perfect fit and style. The lecterns are virtually free of maintenance for decades. In ILS products it is possible to remove a damaged part and renew it, or to make new fittings for future upgrades without affecting the rest of the installed system.

ILS Synergy QK delivers ILS quality with a smart design. Long version of the top is placed on a compact, motorized wide cabinet (14U Full Rack Cabinet) with a height adjustment range up to 23 cm (9"+). Two buttons will help you to control it.

Long version of the top is divided into two working areas. On the left is a monitor 24", mounted inside the working surface. On the right is a smooth aluminum surface for handwritten notes, laptop or installed control panel. A holder for the micro PC is installed inside the working surface. This lectern also provides one horizontal side table (can be upgraded to the 1 or 2 flip or sliding tables). This makes it possible to use handwritten notes, laptop, or place a document camera on it. The built-in switcher or four sockets with the type on request will be great helpers when handling connections between the main screen of the lectern and/or laptop, or other devices. To do this, there are four buttons on the top panel of the product. There are also two USB 3.0 sockets and a holder with built-in charging cables for tablets and smartphones. The microphone socket is of the XLR shock-mount type and there is the provision for a reading light, controlled by the button. The cabinet has a keyboard drawer, one lockable compartment and a trap door for quick cable access.

For ease of movement and stability of the lectern during the presentation, four lockable smart castors are provided. In addition, we will be pleased to engrave your logo on the front panel of the lectern, in case of using the system in formal events!

DIMENSIONS

Width	**Top:** 1030 mm **Side Plate:** 330 mm x 480 mm **Top + Side Plate:** 1325 mm **Cabinet:** **External: width:** 520 mm **height:** 805 mm **depth:** 560 mm **Internal:** 　**width:** 485 mm 　**height:** 160 mm (from lift to top) 430 mm (from lift to bottom) **depth:** 255 mm (from lift to top) 550 mm (from lift to bottom)
Height	**User side:** **min:** 970 **max:** 1170 mm **Audience Side:** **min:** 1095 **max:** 1395 mm
Weight	105 kg

INTEGRATION

Display & PC	**Monitor:** 24" Dell 2418HT IPS; 10 points capacitive touchscreen **PC:** Dell Optiplex 3070 micro Intel Core I-5 CPU; 8GB RAM; 256GB SSD;
Accessories	**Switcher:** ILS503 switcher or 4 x sockets (type on request) **Audio:** 1 x Microphone: AKG CGN 99 **Light:** 1 x Light: LITTLITE LED BNC lamp
Features	Extra space on the right from the display for laptop or notes ILS holder for micro PC installation inside working surface Ultra Wide Phone/Tablet holder 14U Full Rack Motorised Cabinet 20cm range height 7 x Buttons (4 x Signal switch; 2 x Height control; 1 x Light;) 1 x Side Table (Right) 1 x Keyboard drawer 2 x Lockable compartments (1 x Metal drop down door; 2 x Doors;) 4 x Lockable smart castors or sideway rollers
